First Language

This is our second year of producing our *First Language* magazine. It is designed to help encourage our students to enjoy the use of their home language, and hopefully to join in with *First Voice* at Palmerston North Intermediate Normal School in coming years. While we, as an English medium school, cannot teach the children their home language, we can encourage its use and show that the culture and language of each child has a place within Hoko-whitu School.

We send our thanks to our parents who help translate our work for us.

The front cover was designed by Daniel. The children voted on it and it was chosen to represent this year's work.

brown nuts.)

## Bos Angkunh

This is a traditional Cambodian game. It is known for being popular in Cambodia. To play the game, you need to get 10 brown seeds and place them in a triangular shape. There are two teams. The opponent teams have to hit the teams seeds. If one of their seeds is hit, one of the team members will be out. You have to throw underarm to properly play the game. Also, you will need two to ten people. Once the opposing team knocks out all of the team's seeds, they win.
