

The Refugee Experience

Where do refugees come from ?

Ukraine 5.9 million refugees

Ukraine and Russia are at war. About 3.7 million people have been driven out of their homes or their homes have been bombed by Russia

Syria 6.5 million

Refugees from Syria leave their home country mostly because they don't want their children to suffer in Syria with all the bad people and because they are finding a safe place to keep and raise their children properly .

Afghanistan more than 8 million

People from Afghanistan leave to become refugees because of violence and treating woman wrong and beat them so they leave their husbands and go start another life somewhere else and because they can't leave a house or leave the house in a car to drop your kids off at school without a husband

Where do refugees go?

Syria-> Turkey, Lebanon, Jordan, Iraq and Egypt

Afghanistan-> Pakistan and Iran

Ukraine -> Poland, Germany

What are boat people?

Boat people are refugees who have been saved boat or ship. Vietnamese people were labeled 'Boat people'. Boat people are refugees who would rather pay to get on a boat or ship or jump onto the boat because they don't have to pay. Also boat people are refugees trying to find a new country to accept them but that can be hard. The risk of a boat refugee is starvation, dehydration and death and not being able to pay enough money refugees can go to

- Vietnam
- Ukraine
- Thailand
- Turkey
- Australia
- Greece

What is the difficulty with food for refugees?

The problem with feeding refugees is they are getting displaced from their homes
And then there's not enough food in the camp that they have gone to and no fresh
Food because fresh food spoils quickly, or mice eat it, and if it spoils no one
wants to eat it so then they die

What is Nauru?

Nauru is a prison for boat people. It is an island of Australia. The refugees are kept behind fences. Australia people think that the refugees are bad. There are 12,878 people at Nauru. Some refugees return back to their country some stay at Australia for healthcare.

From: Jonathan Su

Do refugees return home?

Some do others don't

Some do not because....

Some fall off the boat

Some sink

Some get shot

Some don't have enough food to survive

Some sacrifice their lives for their families

Some can't go back to their home countries

Some get welcomed by other countries

some get rescued

some go to different countries

about 3 million people have survived

some return home when it is safe
